## Leading men support their ladies!

Todd Williamson/WireImage.com

A-list men **Jason Segel**, **Jack Black**, **Gavin DeGraw**, and **Ryan Seacrest** love the ladies...and want them to get early detection tests! The stars have joined forces with the Noreen Fraser Foundation to create the Men For Women Now campaign, which inspires men to support the women in their lives by reminding them to screen for various cancers. Celebs made video e-cards that can be viewed and shared at [www.menforwomennow.com](http://www.menforwomennow.com).
